Oil Price Probe Slated To Hear Industry Chiefs

Reasons Behind Hike In Costs May Be Told By Spokesmen

WASHINGTON (P)-Sen. Barrett (R-Wyo) said today oil industry spokesmen may be able to "make a showing" for price increases wholly aside from effects of the Suez Canal closing.

Some members of Congress and others have accused the oil industry of price gouging in the wake of stepped-up demands for oil to be shipped to Europe. There have been suggestions for government action if the oil firms don't roll back their pric-

Barrett said he wanted to hear The industry's side before reaching a conclusion.

He is participating in a Joint subcommittee inquiry into recent fuel oil and gasoline price boosts. and operation of the emergency by the government.

costs, unrelated to the Suez crisis, justified a hike in oil prices. Since rel and gasoline a cent a gallon.

IN THE HOUSE Thursday, Rep. Ikard (D-Tex) said the crude oil price increase was "necessitated communities. and justified by spiraling costs," mainly for steel and labor.

The Senate investigation, under the chairmanship of Sen. O'Ma-Shoney (D-Wyo), is in recess until Tuesday, when spokesmen for the independent petroleum producers Two hours after the first shot

Queen, Duke

Hinted Split

BALTIMORE (# - The Baltimore Sun says London's cafe society is "talking openly of a rift between Queen Elizabeth and the Duke of Edinburgh."

A London dispatch by Sun Correspondent Joan Graham reports: "The whisper started last summer. It was then hinted by the know-it-alls that the Duke of Edinburgh had more than a passing interest in an unnamed woman and was meeting her regularly in the private apartment of Baron, the court photographer who died of heart trouble at the age of 46 last fall."

The dispatch said the gossip gained ground that the Queen's announced that he was to make a four-month round-the-world tour.

The duke is now at Gibraltar on the last stages of his tour on During Meeting the royal yacht Britannia. The Sun said it originally had been planned for him to return to Lon- Cubs, scoutmasters and area comdon to spend a week with the mittee members held a roundtable Queen before she sets out for a discussion last night in Presbyter- David Lee Porter, 18, of Hart- vealed "nothing beyond the use of 4. Extension Of Pact Covering U. S. Air Bases Seen In Offering

WASHINGTON (A) - President Eisenhower and King Saud, reportedly in full agreement on Middle East problems, held their final meeting today.

Their White House conference is to bring forth a communique tonight summing up results of their talks during the last 10

After the 95-minute conference, Eisenhower flew to a Georgia vacation and Saud prepared to leave Saturday for Spain. American and Arab officials indicated beforehand the Eisenhow-

these key points: 1. Extension of the agreement under which the U.S. Air Force uses the Dhahran air base, possibly for five years.

er-Saud communique would cover

with bigger tanks and jet planes.

5. Possibly, an expression of

hope that the ship-clogged Suez Canal will be reopened soon. Sau-di Arabia is feeling the pinch of the canal closure on its \$300 million a year oil royalties. Saud buys his guns, tanks and planes from the U.S. now.

He is understood to have as-

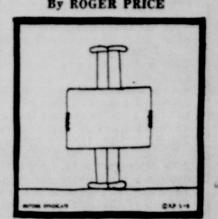

sured Eisenhower he wants to keep on doing that, and also to get free U. S. weapons without having to sign a treaty which would put American technicians in control of such weapons. Saud's deputy foreign minister

Gas Company Official Speaks At Rotary Meet

formation department of the Ohio Fuel Gas Company addressed the gular meeting Thursday noon.

Miss Magruder was dressed entirely in apparel fabricated from gas products.

She pointed out that some of the many products of gas are antiacetylene, solvents, man-made fibers and plastics, dry ice, synthetic blood plasma and false teeth,

Miss Magruder reminded her listeners that gas is a tool and material as well as a highly versatile fuel.

SHE REMINDED Rotarians that Ohio is very fortunate to have large facilities for underground storage of gas. On November 1 of this year there were 165 billion cubic feet of gas stored in this state, she ex-

Since 92 percent of the gas used in Ohio is piped in from Louisana, Oklahoma, and Texas, this storage is very valuable in absorbing a surplus during periods of limited use, and in supplying additional quantities during periods of peak load, it was pointed out,

Miss Magruder noted that \$200 million was spent in Ohio since the war to build this transmission system to enable the gas company to meet increased demands.

eBfore the war there were 50,000 gas heated homes. Today there are 500,000 home users.

Is Miraculous Divine Healing Being Performed Today-No. 5

In our study today we wish to note some more characteristics of miracles as performed in the days of Christ and the apostles. 6. JESUS DID NOT HEAL FOR NOTORIETY AND SENSA-TIONALISM. His was a higher and holier mission than to minister satisfaction to the curiosity of the masses. He did not propose to create awe by his demonstrations, but rather to command due respect for the fact that a Divine personage moved in the company of men. In at least five instances of healing, He commanded that the healed "tell no man" of the miracle (Mt. 8:1-4; 9:27-

31; Mk. 3:7-12; 7:31-37; 8:22-26) 7. JESUS DID NOT DISCOURAGE THE USE OF PHYSICIANS AND MEDICAL REMEDIES. The majority of faith healers denounce physicians, and deplore the use of medicines. It is singularly strange that if the use of medicines was contrary to the will of Christ, that not one time did He make such known to men. Not once does He condemn the use of medical means, or forbid the employment of physicians. On the contrary, the Lord not only endorsed the use of medical means (Luke 10:30-35), but he advocated the use of physicians (Mt. 9:12)

8. THERE WERE NO PARTIAL HEALINGS. When Jesus healed a subject, he was made completely whole. There was not merely improvement, or gradual, natural recuperation. The distinguishing feature between divine and natural healing is that the divine is always instantaneous.

THERE WAS NEVER A CASE OF RELAPSE IN ANY OF CHRIST'S HEALINGS. Not one instance is ever recorded of where one reverted back to his former afflicted condition. Christ's heal-

ing was done perfectly.

10. THE HEALINGS OF CHRIST WERE NOT PSYCHOLOGI-CAL, OR MIND CURES, BUT THE ACTUAL SUPERNATURAL WORKINGS OF GOD. Many of the present day healings can be explained psychologically or hypnotically. The remainder are simply "lying wonders" (2 Thess. 2:9; Mk. 13:22).

"THE CHURCHES OF CHRIST SALUTE YOU" (Rom. 16:16)

> AT NO INCREASE IN ADMISSIONS So That EVERYONE Can Afford

Here's the bomb THAT BROKE THE "low-price" lineup!

This big high-stepping Chieftain started a revolution with a carload of "firsts" and an eye-popping price tag!

The low-price field never looked like this before! The handsome husky you see right here has the boat still rocking . . . with more power, more wheelbase, more room—and more sheer pride of ownership—than ever before possible on a well-trained budget! Just look at what they're making room for now in the low-price lineup: a strapping 347 cu. in., 10 to 1 compression ratio Strato-Streak V-8... a whopping, road-hugging 122 inches of wheelbase and an all-new suspension system for a Level-Line Ride that's next best thing to a magic carpet! And this streamlined beauty takes on the field with more than six dozen "firsts", all proved by 100,000 of the roughest, toughest test miles a group of facts-minded engineers could devise! If this sounds like a wonderful buy—it certainly is! Our advice is to stop dreaming and price it! At a cost less than a lot

of the low-price jobs, this newcomer is making big-time buyers out of former "all-three" owners! hieftain Lowest-Priced Series of America's Number Proad Car! Pontiac

Gas Company Official Speaks At Rotary Meet

Miss Jane Magruder of the information department of the Ohio Fuel Gas Company addressed the Circleville Rotary Club at its regular meeting Thursday noon.

Miss Magruder was dressed entirely in apparel fabricated from gas products.

She pointed out that some of the many products of gas are antifreeze, alcohols, detergents, day to Berger Hospital as a suracetylene, solvents, man-made fibers and plastics, dry ice, synthetic blood plasma and false teeth,

Miss Magruder reminded her listeners that gas is a tool and School. material as well as a highly versatile fuel.

SHE REMINDED Rotarians that Ohio is very fortunate to have large facilities for underground storage of gas. On November 1 of this year there were 165 billion cubic feet of gas stored in this state, she ex-

Since 92 percent of the gas used in Ohio is piped in from Louisana, Oklahoma, and Texas, this storage is very valuable in absorbing a surplus during periods of limited use, and in supplying additional quantities during periods of peak load, it was pointed out.

Miss Magruder noted that \$200 million was spent in Ohio since the war to build this transmission system to enable the gas company to meet increased demands.

eBfore the war there were 50,000 gas heated homes. Today there are 500,000 home users.

Is Miraculous Divine Healing Being Performed Today-No. 5

of miracles as performed in the days of Christ and the apostles. 6. JESUS DID NOT HEAL FOR NOTORIETY AND SENSA-TIONALISM. His was a higher and holier mission than to minister satisfaction to the curiosity of the masses. He did not propose to create awe by his demonstrations, but rather to command due respect for the fact that a Divine personage moved in the company of men. In at least five instances of healing, He commanded that the healed "tell no man" of the miracle (Mt. 8:1-4; 9:27-

31; Mk. 3:7-12; 7:31-37; 8:22-26) JESUS DID NOT DISCOURAGE THE USE OF PHYSICI-ANS AND MEDICAL REMEDIES. The majority of faith healers denounce physicians, and deplore the use of medicines. It is singularly strange that if the use of medicines was contrary to the will of Christ, that not one time did He make such known to men. Not once does He condemn the use of medical means, or forbid the employment of physicians. On the contrary, the Lord not only endorsed the use of medical means (Luke 10:30-35), but he

advocated the use of physicians (Mt. 9:12). 8. THERE WERE NO PARTIAL HEALINGS. When Jesus healed a subject, he was made completely whole. There was not merely improvement, or gradual, natural recuperation. The distinguishing feature between divine and natural healing is that the divine is always instantaneous

9. THERE WAS NEVER A CASE OF RELAPSE IN ANY OF CHRIST'S HEALINGS. Not one instance is ever recorded of where one reverted back to his former afflicted condition. Christ's heal-

ing was done perfectly. 10. THE HEALINGS OF CHRIST WERE NOT PSYCHOLOGI-CAL, OR MIND CURES, BUT THE ACTUAL SUPERNATURAL WORKINGS OF GOD. Many of the present day healings can be explained psychologically or hypnotically. The remainder are simply "lying wonders" (2 Thess. 2:9; Mk. 13:22).

Can U.S. Half **Nation's Rising** Cost Of Living?

Talk In Washington Of Federal Controls Worries Wall Street

By SAM DAWSON

NEW YORK (A) - What to do about the rising cost of living? Should - or can - the government stop it? Or should we wait for natural economic laws to apply the brake-with the possibility that a revolt by the buying puband perhaps also to full employ-

Federal controls over business and labor would be widely unpopular with both. Mere talk about it by President Eisenhower sent a momentary shiver through the stock market.

prices and wages seems an awful 'Airman Of Year' ing what it is.

helps feed inflation. And high tax- est "airman of the year." ends meet.

All these gloomy prospects are being discussed both in Washington and in industrial centers, along with some talk that the present extent of inflation isn't

The budget is being held in balance, although spending has been rising. Getting most of the blame Assault Of Picket for inflation here has been the

The Department of Commerce reports that last year the rise in wages and salaries came to 7 per cent, adding 15 billion dollars to personal income totals. Out of that 15 billion, Americans have been paying the higher prices for goods and services that have sent the cost of living up 3 per cent.

It is this rise in wages and prices that the President says the government must try to control if business and labor don't do the job themselves. But while most people deplore the rise in the cost of living, the individual business- Dec. 5 by the Amalgamated Clothman will tell you he had to raise prices on his own goods, and the individual worker will tell you he needs more money and doesn't credit controlling job "more difthink that the rise in his own paycheck should send prices up.

It's always: The other fellow should do it Talk of government controls always comes around to: 1. Making President has tossed out for us. money tighter so there won't be so much of a demand for it by businessmen to spend—a demand that tends to hike prices; 2. Tightening credit terms so that consumers won't buy so much on time-a demand that also tends

to keep prices firm. Federal Reserve Chairman Martin says that, if anything, money hasn't been tight enough. And he also says that the new and higher federal budget will make the

SHE DOESN'T THINK

INGRID BERGMAN, movie actress who returned to the United States to receive an award, said in an interview that she speaks most facility to thought, she replied:

"I'm often asked that question and my hero's wife sooner or later. standard answer is that I don't think."

Perhaps Miss Bergman meant her answer to be flippant, but there's a good deal of meat to it. Members of the acting profession live their emotions. If they didn't, they wouldn't be notable on stage and screen. Those who live their emotions are not proficient thinkers.

This brings up, in its turn, the adulation with which millions follow the Thespians. That is mostly because the times have elevated them in salary and pomp. They are a glittering lot, as they were not a few generations back before mass communications put them before all eyes.

But their stock in trade is still emotionalism, which is a poor thing to follow as a guide. Many were disgusted or angry when will remain neutral. Miss Bergman flew her home nest here and made another one in Italy. She wasn't thinking. She was emoting. If everybody followed her, the survival of family life would be doubtful.

Perhaps in another era the actor class will be returned to their traditional niche. But not while they glitter so brightly in their materialistic setting.

EDISON'S BIRTHDAY

NO MAN AMONG those whose genius lay in making things work has had a greater impact on the world than Thomas Alva Edison, who was born 110 years ago, Febed 'Wizard of Menlo Park' took out nearly 2,000 patents, and many other ideas he gave to the world without patenting.

no one has ever succeeded in fully describing all they produced. The electric light was no doubt his greatest invention. Others among those most frequently thought of are the phonograph, silent and talking an Agreement on H-Bomb Testing? motion pictures, multiplex telegraphy, the tric railway.

- Henry Ford, who as a young man drew much encouragement from Edison, acquired the inventor's entire Menlo Park, N. J., laboratory. A material record of America's on aggression. She would be unmasked begreatest inventor is preserved in Dearborn. Mich., at the Ford 250-acre Greenfield Vil- neutral or borderline countries who may

inition of genius-'Two per cent inspira- tation for her own ostracism-her quaran- lic Health Service at a monthly son, Gene, left for a visit with The proprietor of a bar and grill tion and 98 per cent perspiration."

Britain announces it will not be a satel- high. lite of anybody. Well, perhaps a satellite of the U. S. Treasury just a little bit.

New England man has sat through 1,500 | WORD FROM Paris is that the "new civic banquet speeches, which is believed look" will soon make its return. Dior, the to be a record. The state of his digestion fashion czar, has dropped skirts four isn't disclosed.

George E. Sokolsky's

Another crisis seems to have passed like a fiery comet across the sky. It looked like war; it passed into discussion and the only casualty was Sir Anthony Eden whose gall bladder kicked up while the crisis was on.

Most of us have been living through such year within Pickaway County, \$7 in advance. Zones crises most of our adult lives and we are getting used to them. Like in a Western in the movies, you know that whoever rides the white horse is the hero and he will get the girl or at least a kiss before the end of the show. The fellow on the black horse is the vallain who will come to a sad end.

The girl, whether she starts as a waitress in the local boarding house or comes into five languages. Asked which language lent town to set up a dress-making establishment or to teach school, will end up as the

> It is just like the fellow who wins the President to his cause getting a couple of hundred million dollars for this or that, just to show his folks back home that he stands in right, that is to the tune of as many hundreds of millions of dollars that it is possible to take out of the earnings of the American taxpayer to bring about a greater equality among peoples.

It is not only the United States that is expected to put up plenty of its taxpayers' money to offset the crises as they occur, but Soviet Russia now finds herself in the same fix. Soviet Russia, having grown rich through revolution, wars and Five Year Plans, is asked to put up plenty of arms and munitions so that the various neutrals

There used to be a saying in old China that a judge is most honost when he accepts an equal bribe from both sides. The same definition might be applied to a neutral. If the United States and Soviet Russia ever entered into a compact to stop bribing neutrals, and lived up to it, the human race might be spared a few crises and also the agony of excessive politics and high taxes.

SHE DOESN'T THINK

INGRID BERGMAN, movie actress who returned to the United States to receive an award, said in an interview that she speaks most facility to thought, she replied:

"I'm often asked that question and my hero's wife sooner or later. standard answer is that I don't think."

Perhaps Miss Bergman meant her answer to be flippant, but there's a good deal of meat to it. Members of the acting profession live their emotions. If they didn't, they wouldn't be notable on stage and screen. Those who live their emotions are not proficient thinkers.

This brings up, in its turn, the adulation with which millions follow the Thespians. That is mostly because the times have elevated them in salary and pomp. They are a glittering lot, as they were not a few generations back before mass communications put them before all eyes.

But their stock in trade is still emotionalism, which is a poor thing to follow as a guide. Many were disgusted or angry when Miss Bergman flew her home nest here and made another one in Italy. She wasn't thinking. She was emoting. If everybody followed her, the survival of family life would be doubtful.

Perhaps in another era the actor class will be returned to their traditional niche. But not while they glitter so brightly in their materialistic setting.

EDISON'S BIRTHDAY

NO MAN AMONG those whose genius lay in making things work has had a greater impact on the world than Thomas Alva Edison, who was born 110 years ago. February 11, 1847, and died in 1931. The talented 'Wizard of Menlo Park' took out nearly 2,000 patents, and many other ideas he gave to the world without patenting.

Mrs. Louis Wuest Hosts For Session

Mrs. Virginia Kuhns of Chillicothe, who used some of her own paintings to illustrate her talk, was the guest speaker for the February meeting of Circleville Junior Woman's Club.

Mrs. Louis M. Wuest was hostess for the meeting, which was held Thursday evening in her ome on Springhollow Rd.

Mrs. Kuhns stressed that one may develop a skill for expressing himself in the various art forms, that it is not at all necessary for one to have been born with a talent for art. She said that art skills are acquired through training 90 percent of which is just working

She urged her listeners to paint they had any inclination to do so. She said there are rules for technique but that most rules are made to be broken in art, that there is no one way to paint.

Mrs. Kuhns told the group that painting is as individual as handwriting and that each person should paint as he sees and feels about the subject.

Mrs. Kenneth Luna presided for the business meeting, during which Mrs. Wuest and Mrs. John Griffith reported that circulation of questionaires on the club's "Community Needs" survey has been started with a total of 1000 questionaires to be distributed.

Mrs. Luna announced that Legislation Day for the Southeast Dismen's Clubs will be held in Oak Hill on March 5.

Guests for the meeting were Mrs. Gordon Anderson, Mrs. Wilnam Hildenbrand, Mrs. Ray Sapp, Mrs. William Blanton and Miss Ruth Montelius.

Mrs. Ray Friend and Mrs. William Rickey assisted the hostess in serving refreshments at the close of the meeting.

Fair Complexion Result Of Care

Want to have a peaches-andcream complexion?

Then make up your mind that smooth, lovely skin does not just happen. It is the result of care and of good health habits.

First of all, watch your diet. Keep greasy, gooey foods to a minimum. Make sure your daily menus are well balanced. Secondly, see that you get the

proper amount of sleep. Lack of shut-eye shows up on skin, makes t look gray and haggard, Make-up will not hide weariness.

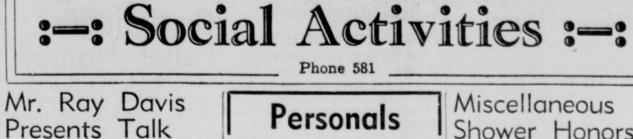

Third, take care of skin. At least three times a day, your face needs a thorough cleansing.

First, wash off stale make-up. Use plenty of soap and lukewarm water plus a complexion brush or a thick washcloth.

p again, Using fingertips, mas- with a clean towel. age the soap into skin, working from the base of the throat up and morning and, if you are a home- nual treasurer's report and re-

ing, which includes the purchase session ends Saturday. price of new homes, repairs and price of new and used cars, re- to 98 billions. trolleys and trains - 2.9.

motion picture theater prices, the \$71.34 to \$84.05. prices on TV and radio sets and In the same period corporate newspapers-1.4 per cent; person- profits were advancing from a al care, which includes toilet arti- yearly rate of \$39,500,000,000 to cles, and prices in beauty and \$41,200,000,000. barber shops - 8.4; and other goods and services, which in cludes tobacco, alcohol, legal services, and so on-6.4 per cent. Here are increases and de-

creases in some of the items in those categories: New cars went up in price 4.3 per cent; used cars went down 21.8; repairs on autos-up 13.6; fares on buses, trolleys, trains -

18.5 per cent. Hospital rates rose 23.7 per cent doctors' fees-up 11.6; the price on new radio sets dropped 12.4 per cent; on new TV sets it dropped 10.6 per cent.

Some other figures, obtained from other government agencies, showed personal income in Eisenhower's first four years rose from \$237,400,000,000 after taxes to \$288,200,000,000.

But people didn't depend entirely on the increase in their income to buy more things. They went into debt to buy things they could not pay cash for. And this was result: consumer credit

to \$31,552,000,000. The way the people went into debt is almost startling: auto loans rose from \$7,733,000,000 to \$14,436,000,000 or almost double in four years. That was the biggest single jump in the credit department although personal loans took a leap also - up from \$4,111,000,-000 to \$7,184,000,000.

In addition to this particular kind of credit debt, there was another which was amazing: home

in long-ago 1837 . . . and started the "John Deere Plows are better plows" tradition that has grown stronger and stronger down through the years. Better work for more years at lower cost with greater convenience is yours when you choose a John Deere Plow. See us for complete information.

Guy Cline said he would be in fa- unanswered questions in cases vor of legislation now before the Ohio General Assembly to make parents financially liable for the destructive acts of their children.

However, the judge warned it "will by no means be the answer to all our teen age delinquency problems."

He explained that, in approximately half the teenage cases brought before him, the parents of the offenders are not in a position to pay the costs of damage done by their offspring.

"In many instances the parents of the boys are dead or are on relief: other times the father is in confinement, himself," Judge Cline said. And he added:

"In cases in which the parents have been responsible people, they have usually paid for the property destroyed or damaged."

JUDGE CLINE thought the several problems. Where a number pointed out there might be diffi- ical Society changes its stand. culty in determining how the

CIRCLEVILLE, OHIO

Judge Cline Favors New Move Man Is Killed and a safe in the basement office was empty. Police said they will not be able to determine the loss Against Parents Of Vandals In Alliance

Guy Cline said he would be in fa- unanswered questions in cases vor of legislation now before the Ohio General Assembly to make parents financially liable for the thought delinquency laws cannot surance companies holding policies destructive acts of their children.

However, the judge warned it "will by no means be the answer to all our teen age delinquency problems."

He explained that, in approximately half the teenage cases brought before him, the parents of the offenders are not in a position to pay the costs of damage done by their offspring.

"In many instances the parents of the boys are dead or are on relief: other times the father is in confinement, himself," Judge Cline No Free Mass said. And he added:

"In cases in which the parents have usually paid for the property destroyed or damaged."

JUDGE CLINE thought the several problems. Where a number pointed out there might be diffi- ical Society changes its stand. culty in determining how the pay for the loss. The probate judge also thought
